Section VII - Precautions for Safe Handling, Use or Disposal

Spill/Leak Procedures

Contain the spill to prevent discharge to surface streams or storm sewers. Since landfill operations will not accept liquid waste, allow to dry if possible before collecting for disposal. An absorbent material would aid in cleaning up a liquid spill. If liquid cleanup is necessary, collect in drums, buckets or other containers.

Waste Management/Disposal

The environment concern is discoloration of land or water. If possible, the slurry should be dried before disposal. Disposal must be made in accordance with Federal, State and local regulations. Pursuant to 40 CFR part 261 of the Resource Conservation & Recovery Act (RCRA) Regulations currently in effect, discarded Pigment Green 7 would not be classified as a hazardous waste.

Precautions to be taken in handling and storing
